### LEFT A SURE THING

(Blighty, London)  
A doctor took it into his head to go rabbit hunting, and so he started out quite early on a beautiful morning, fully armed for the sport. About 4 o'clock in the afternoon he returned, tired out and empty handed, telling his wife he hadn't killed a thing, whereupon she remarked triumphantly: "I told you so!" adding in the next breath: "If you had stayed at home and attended to your legitimate business you might have been more successful."

### And She's Player In "Take It From Me"

NEW YORK—"They'll never enforce a 'visit and search' law on my cellaret," said Edith Dale, who has utilized the former repository of spare change to hold a neat little half pint bottle. Miss Dale is a member of the "Take It From Me" company, but she says the federal officials never will dare to try to take her private cellaret from her.

### RAIN DOES LITTLE DAMAGE TO COTTON

The rain yesterday damaged cotton on the richer soils, but has helped the cotton growing on soils which are less fertile, according to statements made by cotton experts.  
It is explained that on soils capable of yielding more than half a bale to the acre, the lower soils on the cotton will fall as a result of the rain, and a large woody growth will result. On lands normally producing less than a half bale, however, the crop will be benefited.  
Alfalfa which has been cut must inevitably have suffered from the heavy rain, ranchers state, but the rains in July and August always occur and must be anticipated.
